lodges of Manitoba and the Northwest
Territories being held in Winnipeg. D.
S. McKenzie was elected District De-
puty Grand Master. The next annual
meeting of the Masonic lodges of the
Canadian west will be held in Edmon-
ton next year. This is a very decided
tribute to the rising importance of
our city.

ELECTRIC LIGHT EXTENSIONS.
A. W. Ormsby, city electrician, has
plans under way for the extension and
renovation of the Edmonton electric
light system. A line is being built up
Queens avenue from Jasper avenue to
Third street. The existing lines along
Fraser and Maynard avenues are un-
dergoing general repairs and the line
is being extended in each case to Fifth
street. The lines from the public hospi-
tal east are undergoing renovation.
All the electric light poles except the
ones to which are lights are attached
are being removed from Jasper avenue
and the line run along the lane be-
hind the stores. The poles are being
painted. It is an excellent idea
that of doing away with the large ma-
jority of the poles on the main street.
Two new electric light lines are being
built to the Hudson Bay reserve from
Victoria avenue to McKenzie avenue
at Fourth street. Other lines will be
run to suit residents where lighting is
necessary. The renovation of the sys-
tem, which is now under way, will
have a very marked improvement on
the general appearance of the town.

Scottish 2
Americans 18
Austrians 28
Germans 6
Norwegians 12

Total 96
These 96 homesteaders with their
families represent an increase in popu-
lation of 284 in one week.

State of Calgary Strike

Herald.

There seems to be nothing new in
the position of the strike, and at the
moment of writing, no move or sug-
gestion is made by any one for any
of the parties directly interested to
terminate or suggest some termination
of the unfortunate state of affairs.
Through many rumors are afloat.

In the meantime a great injury is
being done to the city of Calgary.
Building operations are at a stand-
still and new and projected works are
set aside perhaps not to be taken up
again.

It appears to be up to the teamsters
who initiated the strike, to make some
advance towards negotiations, and
looking to the welfare of Calgary to
put aside any question of modesty or
feeling in order that ordinary condi-
tions may be restored. Also in view
of the state of public opinion the ques-
tion of employment of none but union
men should not be pressed.

We and many of the public are fa-
vorable to the unions, but in pressing
this question they are without the
backing of public opinion, and without
this, nothing can succeed.

NOT GOING TO CHINA

The following interview with Rev. John McDougall, D. D., appears in a recent issue of the Winnipeg Free Press.

Rev. John McDougall, D. D., superintendent of the Indian missions of the Manitoba and Northwest Territories, who is the president of the city of the stationing committee, and the conference, was asked concerning the statement telegraphed from Ontario, that he was about to go to China, and he supported there by the Foworth league of three Ontario districts. He explained the report as a misunderstanding. The action taken has no reference to China but is in connection with the special emergency fund decided upon at the general conference in September to provide for the support of the superintendents of missions who were appointed as an agency to meet the rapidly growing necessities of the work in Western Canada. The three districts named have undertaken responsibility for the support of Dr. McDougall's work which is still to be among the Indians of this country.

Last evening Dr. McDougall preached in Grace church from the words: "and the Lord said unto Moses, speak unto the children of Israel, that they go forward." The preacher described the position of the children of Israel, knowing very little about the wilderness and very little about the conditions which go to make up a strong manhood and a real womanhood. He spoke of their pusillanimous conduct and ridiculous fear. Referring to their crossing of the Red Sea, he told how when he was a boy, in the early fifties, on the banks of the St. Mary's river, a violent wind storm unroofed houses, blew down buildings, leveled a strip of forest, laid a mile wide, and plowed into the lake, making a channel into which the water rushed, leaving some of the inlet dry. This was a little thing for God to do. When the Israelites and expressed praise and thanksgiving from the place of their distress, cowardice and grumbling against God. Dr. McDougall spoke of the pioneers of the country, who came in small boats up Lake Superior, past rapids and falls, and of others who came from England to York Factory to preach the Gospel among the native tribes. He referred to Robert Rundle as the first Protestant minister that ever ascended the Saskatchewan and preached the Gospel at Edmonton and east, north, and south, going down to Southern Alberta, sometimes with only an Indian boy as a companion. Robert Rundle, he said, was preparing the way and making it possible for others to come and without bloodshed occupy the country. He told of a meeting in 1878 at the end of Great Slave Lake in a room packed with people when he sang "Behold, the saviour of mankind," and learned that an Indian present had heard the same song by Robt. Rundle in the Peace River country. He was proud to have had a grasp of the hands or a glimpse of the faces of Roman Catholic pioneer missionaries, of Anglicans, Bishop Bampas, Archdeacon McDonald, and others as they passed in. He also recalled his own trip into the west, from Fort Garry, across the plains, crossing the Assiniboine at the mouth of the Qu'Appelle to the Touchwood hills, across the South Branch, then the North Saskatchewan, etc. He then said that he was destined by and by to become the home of millions of people. He also passed Edmonton and the Red Deer country and climbed the foot hills. In March in 1874 he told the first Protestant service in Southern Alberta, at which a man was present who had been one of the gallant six hundred. When he stood beside England's king he felt proud of the honor, also when he interpreted for the King's son, and though from a democratic country he felt that he was loyal.

Floods in Western States

Columbus, Mo., June 8.—The Congress river early today was 12-2 feet above the danger line and was still rising. The Daily State's staff correspondent, after an all day trip through Racine, Gladale, and Clifton, reports the names of 42 dead, but only four bodies have been recovered. The correspondent says whose families were wiped out.

St. Louis, Mo., June 8.—Word has

been received here that a levee near Madison, on which gangs of men were working, gave way this morning, and fifteen men, employees of the American Car and Foundry Works, lost their lives. About 150 men, it is reported, are imprisoned in a section of the levee, that is slowly crumbling, and all means of escape have been cut off.

Word has been sent to the St. Louis side to rush the yacht Annie Russell to the rescue. The Annie Russell married to Black Walnut yesterday and could not force her way against the current, and it is feared she cannot make her way to Madison.

St. Louis, Mo., June 7.—Like a mill race the swollen Mississippi is surging past St. Louis with a stage of 36.4 feet tonight, making a rise of 1 1/2 feet in the last six hours. No word was received today from the 200 people imprisoned at Black Walnut, 25 miles northwest of here, and in peril of their lives from the rising waters of the Missouri river. Word was received last night that a rescue must be effected immediately or they will probably be long p. away before morning.

Columbus, S.C., June 7.—Though the great flood of water is passing on to the ocean laden with debris of every description and the swollen streams are subsiding in the Piedmont region, the losses of life and property are increasing and a conservative estimate tonight places the property loss at not less than \$3,500,000. The most conservative estimate of the dead is eighty. At Clifton, alone one hundred operatives are missing from the village. During today dead bodies were washed ashore here and there, occasionally a dismembered limb would float to the banks.

Kansas City, Mo., June 7.—Kansas has suffered as a result of the recent floods more than any other state. The damage done in the principal cities and towns is estimated at \$12,000,000. The lowest estimate of the loss on crops is \$5,000,000.

THE HUDSON'S BAY STORES.

WHY THEY DID NOT COME

The following clipping from the Toronto News explains why the party of the Presbyterian ministers en route to the General Assembly did not visit Edmonton as expected:

"The commissioners voted as to whether they would take the side trip to Edmonton. The Canadian Pacific offered very generous terms for the journey of one hundred and ninety-two miles from Calgary to Edmonton. The party would be taken there for fifty cents per mile for the round trip. This train, however, carries the General Assembly officially to its destination. The Presbyterian church has always held with trumpet tongue for a sacred Sabbath of twenty-four hours and the journey could not be taken without encroaching upon the Lord's Day, even for a few hours during the night. The brethren therefore decided to forego the pleasure of the trip. Many of them had not known clearly the conditions and written to friends to meet them in Edmonton."

Most of the commissioners knew personally the man who has represented our church there so ably and so nobly. Rev. D. G. McQueen, a man of strong character, of aggressive missionary spirit and unwavering devotion to principle to the church, and the Lord Jesus Christ, held a large place in the hearts of the commissioners. Very many of whom are his personal friends. It was, therefore, with very great regret that the trip to see him and his magnificent new church had to be dropped. Principle is more than any man, even the least and most intimate, so it was decided to spend a quiet Sabbath at Peaff, or nearer the heart of the mountains."

REARMOOT

The crop outlook in the Beaulieu and Clearwater districts is very encouraging. Today a heavy rainfall prevailed, thoroughly drenching the ground. The growing crops had need of it, although not at all suffering after two weeks of dry and warm weather. The growth now, with the long sunny days still lengthening, must needs be rapid. There is this season an entire absence of the long continued and cold rains, which retarded vegetation in the past two seasons. Nature now let her fairest and under a cloudless sky, the rich green of the trees and grasses, so quickly sprang to life, form a most fair and varied scene. The increased cultivation this year in every fair, making an average of about sixty to seventy per cent. of an increase. Most of this is in oats, which is by far the largest crop. Barley comes next, there being about half as much ground in barley as in oats. There is no increase in the amount of wheat sown as compared with last year, the raising of oats being considered comparatively much more profitable at the prices received during the past two years.

Mr. A. De Mers has 140 acres under crop oats, barley and wheat. Mr. E. Townsend has 150 acres in oats and barley. Mr. J. Lavigne, 75 acres in oats and wheat. Mr. Moore, 50 acres in oats and barley. Mr. Lowenstam, 100 acres in oats and barley.

June 3rd.

VEGROVILLE

Seeding is all done and grain is looking fine. We have had nice warm weather for some time past and the grain and gardens have been brought along quickly.

The three year old daughter of Mr. and Mrs. Still who has been very low with typhoid fever, is not improving much and her life has been almost hopeless of late, but the doctor now has some hope of her recovery.

Mr. Rothey will preach at the Vegroville schoolhouse next Sunday at eleven o'clock. He and Mr. Langley will preach each alternate Sunday at will preach each alternate Sunday at eleven and Sunday school will be held immediately after the services.

We have not yet heard the gentle song of the meadowlark, but are listening for it every day.

THE MARKETS

Trade has been very brisk in Edmonton during the week. Large numbers of farmers from the various districts have been in going to the completion of seeding.

Oats.—The market has been practically dead for several weeks until this week when a considerable amount has been brought in. Farmers having finished seeding are bringing in their surplus oats. The price ranges from 25 to 28 cents a bushel.

Wheat.—The deliveries in wheat are very light and there is very little wheat left in the country. The top price paid is 58 cents a bushel.

Hay.—A large quantity of hay has been brought in during the past week and the market is oversupplied. The price ranges from \$7 to \$10 a ton.

Potatoes.—A considerable amount of potatoes is being brought in and the price has dropped to 50 cents a bushel.

Butter.—Butter is more plentiful but the demand for good butter remains as strong as ever. Twenty cents a pound is being paid for the best butter, inferior grades bringing fifteen cents a pound.

Eggs.—A large number of eggs are being delivered and the price now stands at from 10 to 12 1/2 cents per dozen.

Hogs.—There is a very strong demand for good market hogs. From 5 1/2 to 5 3/4 cents a pound, live weight is being paid.

Beef.—The demand for beef cattle is rather dull, most of the local butchers being well supplied. From 4 to 4 1/2 cents a pound, live weight, is being paid.

Poultry.—The demand for poultry is very strong and the deliveries are just as light. Fifteen cents a pound, dressed, is being paid.

C. P. R. Construction

The C. P. R.'s program of construction for this season, as given out in parliament, is sixty-three miles on the Pheasant Hill branch, and probably forty-two miles further, lying falls on forty-two miles of the Manitoba & Northwestern already graded, and the construction of thirty miles still further toward Prince Albert, completion of the Arctic line, 113 miles from Regina, the reduction of many grades along the C. P. R. system, and the building of longer sidings at stations west of Winnipeg, so as to meet the demand of trade. In reply to a question by Cochrane the C. P. R. secretary said 115 miles would be needed to reach Prince Albert after this year's construction was complete.
